MADHURA AMBAJI CHAKOLE

Frontend Developer | React.js Developer

Pune, Maharashtra, India | +91 9325509858 | madhurachakole.22@gmail.com
linkedin.com/in/madhura-chakole | github.com/MadhuraChakole | madhurachakole-portfolio.vercel.app

PROFESSIONAL SUMMARY

Frontend Developer (React.js) with hands-on internship experience building responsive, API-driven web applications using React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, and Tailwind CSS. Skilled in reusable component architecture, REST API integration, Figma-to-code implementation, cross-browser compatibility, debugging, and performance optimization. Working knowledge of Node.js, Express.js, and MongoDB, with full-stack project experience. MCA graduate seeking a Frontend / React.js Developer role.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Core Java, SQL (basics)

Frontend: React.js, Hooks, React.memo, Code Splitting, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Backend & Database: Node.js, Express.js, REST APIs, Axios, MongoDB, User Authentication

Tools: Git, GitHub, Bitbucket, VS Code, Postman, Jira, Figma

Practices: Reusable Components, API Integration, Role-Based Access Control, Debugging, Cross-Browser Compatibility, Performance Optimization, Agile/Scrum

PROFESSIONAL EXPERIENCE

Web Developer Intern | Proser Digital Solutions *Dec 2025 – Aug 2026*

- Built modular, reusable React components using a hooks-based architecture, reducing duplicate code across admin modules and speeding up feature development.
- Integrated REST APIs using Axios with MongoDB-backed data flows across core admin modules, replacing manual data refreshes with dynamic updates.
- Converted Figma designs into responsive, cross-browser interfaces with consistent layouts across desktop and mobile breakpoints.
- Identified and reduced unnecessary component re-renders to improve UI responsiveness in admin screens.
- Collaborated in Agile sprints; used Git/GitHub for version control and participated in code reviews.

Web Developer Intern | Tayan Solutions *Mar 2025 – May 2025*

- Developed responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Resolved UI and functional bugs and delivered interactive client-side features within sprint deadlines.
- Integrated REST APIs to fetch and render dynamic content in place of hardcoded data.
- Tracked tasks in Jira and collaborated using GitHub/Bitbucket.

PROJECTS

HerFit AI – AI-Powered Fitness & Wellness Platform

React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Developed a full-stack personalized fitness and wellness platform that lets users manage workouts, hydration, daily fitness goals, and progress from a single, user-friendly dashboard.
- Built the React.js and Tailwind CSS frontend, Node.js/Express.js backend, secure user authentication, and MongoDB integration to support data-driven application features.
- Implemented personalized daily workout plans based on users' fitness goals, experience levels, and available time.
- Integrated an AI fitness coach that answers fitness-related questions and recommends suitable workouts based on individual goals and preferences.
- Built hydration tracking with quick-add water logging, daily hydration goals, and progress monitoring to encourage consistent habits.
- Developed workout and activity logging with summaries, and a progress dashboard showing user-recorded workout and hydration data through clear visual indicators.

EDICT App – Enterprise SaaS Platform

React.js, REST APIs, MongoDB | edictapp.com

- Built and shipped six core admin modules: Dashboard, Subscription & Billing, User Management, Reports, Audit Trail, and Feedback.
- Implemented role-based access control and permission-driven UI across user roles, departments, and organizational scopes.
- Developed subscription and billing workflows covering plan restrictions, usage tracking, subscription status, and transaction history.

- Built user-management tools with multi-filter search, department/role assignment, and permission-controlled actions.

Personal Portfolio Website

React.js, TypeScript, Tailwind CSS | madhurachakole-portfolio.vercel.app

- Designed and developed a responsive personal portfolio to showcase projects, technical skills, and professional experience, optimized for desktop, tablet, and mobile screens.
- Built reusable, type-safe React components with TypeScript and styled the interface with Tailwind CSS for a clean, consistent, and maintainable UI.
- Developed interactive project-detail modals presenting each project's description, tech stack, and key features.
- Improved initial load time and reduced unnecessary re-renders using React.memo and code-splitting.
- Deployed the site on Vercel for fast, publicly accessible hosting.

Avtech Solutions – Corporate Website

React.js, Bootstrap | avtechsolutions.co.in

- Built a responsive corporate website, organizing service information into clear, scannable categories.

EDUCATION

Master of Computer Applications (MCA) | PVG's College of Science and Commerce | Grade: A+ *2024 – 2026*

Bachelor's Degree | PVG's College of Science and Commerce | Grade: A+ *2020 – 2023*
